## Projects

### cafelin

📅 Sep 2024 – Nov 2024

Cafelin: Developed a web application using full stack ( MERN ). This is a coffee website where user can order different dishes , add them to the cart and make payment.

### Safar

📅 Nov 2024 – Mar 2025

Safar: Developed a travel web application using MERN stack technology. In this website user can book a ride with an affordable price gets a popup when any driver accept his ride request. User and Driver can communicate freely and both can use map with real time updates for navigation. Apart MERN stack technology i also used socket.io in this project for real time related stuffs.

## Portfolio

📅 Aug 2024 – Sep 2024

Portfolio showcasing proficiency in web development. Utilized react js for front-end design and interactive elements. Demonstrated responsive design and version control.
